

REQUEST FOR FUNDING

Founded in 2020, the Parker's Community Fund was created by a generous donation from Greg Parker and Parker's to give back to the communities that have supported Parker's and its subsidiaries for the past 45 years. You can learn more about the Parker's Community Fund [here](#).

The Parker's Community Fund has identified four areas of focus for donations:

- **Education**
- **Healthcare**
- **Hunger**
- **Heroes**

To qualify for consideration, funding requests/requesters should meet the following qualifications:

- The request must be on behalf of a non-profit organization with tax exempt status under §501(c)(3) of the Internal Revenue Code.
- The request must clearly state a specific need with a clear method for measuring the efficacy of the initiative.
- The organization must provide financial statements and tax returns if requesting more than \$10,000. Large organizations must submit audited financial statements.

Recognizing that all charitable initiatives are important, all requests will be reviewed and thoughtfully considered by the Community Investment Committee of the Parker's Community Fund.

If you would like to send additional data or information about your submitted project request, please send documents to parkerscommunityfund@parkersav.com.
